Year 1W Design and Technology- Moving Mechanisms

Spring 2021

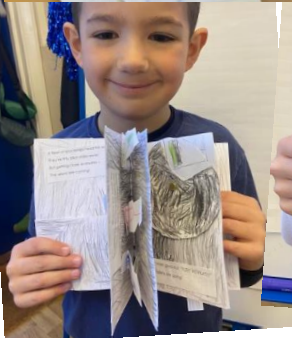

For our spring term DT learning, 1W made their own pop-up books, based on the book, Here Come the Aliens.

We discussed that mechanisms cause movement. The children then explored pop-up books and identified the different types of movements.

The children planned, designed, made and evaluated how to make a pop-up book with a number of moving parts.

Have a look at our final products.
