Year 2 Art

Is art the same around the world?

Year 2 looked at Gond Art from India. They noticed that it is full of beautiful patterns. The pupils learnt that art can be used to express culture and heritage and can be used for generations. There is folk art all around the world and it is always special to the people that make it.

The pupils were inspired by the national bird of India to be the main focus of their art. They created the image of the peacock by breaking it down into shapes for each section. By looking closely at the patterns used in Gond Art, they added detailed patterns to their own work. Pupils made choices about the colours and patterns used.
