Bonfire Night

This term, Nursery have been learning about festivals and how they are celebrated around the world.

When learnt about *Guy Fawkes* and why we celebrate Bonfire Night. We made our own junk model rockets and using various painting techniques, made a firework picture. You can see our great work in the pictures.

To bring our learning to life, we had our own mini bonfire celebration using Lego and talked about fire safety as well as how to keep safe during the event. It was such a fun topic.

I'm swirling and splatting my paint to look like fireworks!

If I mix two colours...I can make a new one!
