

Belleville Wix Academy

Girls' Football Tournament

The recently established Girls' Football Team at Belleville Wix Academy took on the opportunity to represent our school and compete alongside 20 other schools in the Wandsworth borough at a recent tournament at Southfields Academy.

Even though the girls have only recently started playing together, they performed to a good standard throughout the day and never became disheartened when results didn't go their way. Subsequently, the team won their first match in the afternoon phase with goals from Jasmine and Miya in year 5!

Each of the girls took on this opportunity with a fantastic attitude and thoroughly enjoyed the experience. For some, this was their first experience of competitive sport and we hope that it will inspire them and others to engage in more sport in the future.
