Baking

In Nursery, we used our baking skills to make gingerbread. We thought carefully about what we would need to do first and rolled out our dough.

Then we cut out our gingerbread people and placed them on the baking tray. We talked about how we needed to cook the gingerbread in the oven before they would be ready to eat.

Once our gingerbread people had cooled down, we had lots of fun decorating them, whilst thinking about the different features we would need to create the face.
